

アラン ミモ

ALAIN MIMEAULT

SOFTWARE ENGINEER

Specialist in
Humanities/Engineering visa valid
until 2028

 |  **English | French:** Native

 **Japanese:** Conversational;
N2 in progress

 **Chinese:** Conversational

ABOUT ME

Software engineer with experience building modern web applications and data-driven software using Ruby on Rails, TypeScript, and Python. Transitioned into software engineering after over twenty years of ESL teaching and curriculum development, bringing a strong foundation in communication and problem-solving.

SKILLS

Languages

Ruby | TypeScript | JavaScript |
Python | SQL

Front-end

HTML | CSS | Bootstrap

Frameworks

Ruby on Rails | Express | Stimulus |
React | Vue

Databases

PostgreSQL | SQLite

Tools

Git | Playwright | Heroku | LLM APIs

PROJECTS

ScraperEdge: A modular web data aggregator

Jul '26

- Build a modular TypeScript backend with automated tests
- Implement concurrent scraping tasks with resilient failure handling
- Design a type-safe REST API for data aggregation

TypeScript | Node | Express | Playwright

DailyEdge: A statistical market research tool

current

- Import and structure historical market data in PostgreSQL
- Develop backend analysis tools to test trading hypotheses
- Analyze 5.8 million market records to quantify market behavior

Python | PostgreSQL | GitHub

TradingEdge: A financial markets intelligence platform

current

- Build a Rails/PostgreSQL application for quantitative trading research
- Design a relational data model for market data, setups, occurrences, and outcomes
- Implement backend services and interactive dashboards to analyze historical trading performance

Ruby on Rails | Ruby | Python | JavaScript | PostgreSQL | GitHub

Entrika: A TOS analyzer and summarizer

Jun '26

- Build a Chrome extension that communicates with a Rails backend through a custom API.
- Implement a Ferrum/Nokogiri scraper and Anthropic API integration to generate structured risk summaries.

Ruby on Rails | JavaScript | Ferrum | Nokogiri | Anthropic | Heroku | PostgreSQL | GitHub

EXPERIENCE

Leach Inc.

Mar '26 ~ Apr '26

Public Relations Officer

- Prepare and deliver product pitch for startup at **Takeoff Tokyo** 2026
- Act as language liaison between CEO and potential investors/clients

Paideia International

Sep '09 ~ Jul '26

Head English Teacher

- Create and systematize class material for school-wide implementation
- Motivate young learners of English to polish their listening and speaking skills through games, storytelling, and various creative activities

AEON Institute of Language Education

Mar '13 ~ Jun '18

Online Teacher

- Offer quality online 20-minute lessons to corporate staff and professionals
- Required strict adherence to set curriculum and dense lesson schedule

English Teacher at various institutions

Aug '05 ~ May '14

- Provide hands-on English instructions to groups and individual students, adults and children alike

EDUCATION

AI Software Development Bootcamp

Apr '26 ~ Jun '26

LeWagon Tokyo

- Intensive 9-week coding bootcamp with focus on Ruby, Ruby on Rails, JavaScript, SQL, Git, Bootstrap, Heroku
- Develop software using Test-Driven Development (TDD)
- Get from zero to deployment in minimal time frame

Bachelor of Arts in Religious Sciences

Sep '01 ~ May '05

University of Ottawa
